

Ant Flat Snowmobile Advisory

For those snowmobile enthusiasts who frequent the Hardware/Monte Cristo area, please be aware that there is pipeline work being done in the Ant Flat area. Between now and December 15, the Ant Flat Road between Hwy 39 and Hardware Ranch is being plowed and between December 15 and January 1, the road between Hardware Ranch and Scare Canyon will be plowed. During this time it will not be possible to make a complete circuit of the Curtis Creek loop. If you plan on using the Curtis Creek loop, be sure to take along extra gas for a two-way trip. After January 1, the Ant Flat Road will be allowed to fill in with snow and when snow totals on the road reach at least 18 inches, snowmobile grooming will commence.
