- Event Center
- 2014 Fee Schedule
- Upcoming Construction
- Park Hours & Updates
- 2014 Events
- Grooming
- Utah State Parks Friends Group
- Water Resources

Last year was a good year for the park. We had lots of good times and challenges with water levels. We are optimistic that winter hits us hard so that we have plenty of water for playing. We hope 2014 is prosperous for you and your family. May you all be blessed with good health and fond memories.

**HAPPY NEW YEAR**

### State Parks Reservation Changes

- Our local reservation office in Salt Lake has closed. Reservations can still be made by phone and online, however a Reserve America agent will be assisting you. The phone number will remain the same: 800-322-3770.
- Also, reservations for individual sites can be made 16 weeks (4 months) in advance from your departure date, rather than 14 weeks. Group sites can be reserved 11 months in advance.

**\$5,000 in prizes!**

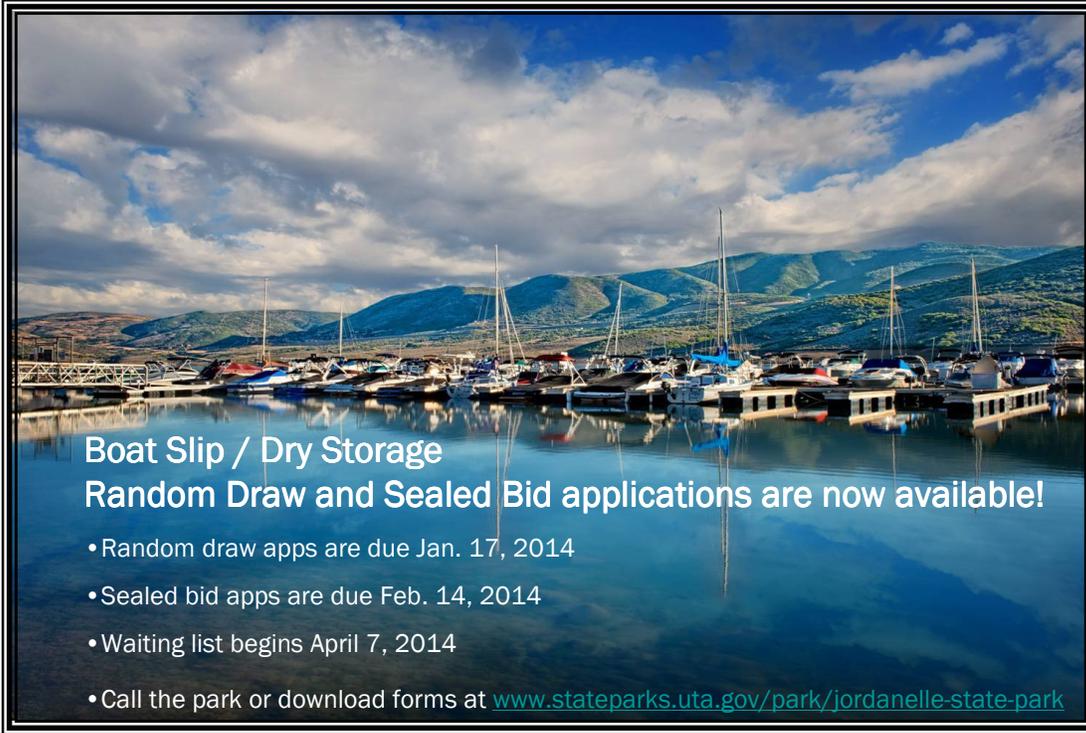

**Registration  
is due Jan. 22!**

### Tournament starts Jan. 25

\$70 for all 4 events or \$20 per event. Enter your largest measured trout caught at each event and the person with the largest total measurement wins! Prizes for 1<sup>st</sup>, 2<sup>nd</sup>, and 3<sup>rd</sup> place finishers at each reservoir and for tournament. Plus numerous other prizes for participants! Go to [www.stateparks.utah.gov](http://www.stateparks.utah.gov) or call each park for more info.

**\$500, \$300, \$200 gift cards to Scheels!**

**Boat Slip / Dry Storage  
Random Draw and Sealed Bid applications are now available!**

- Random draw apps are due Jan. 17, 2014
- Sealed bid apps are due Feb. 14, 2014
- Waiting list begins April 7, 2014
- Call the park or download forms at [www.stateparks.uta.gov/park/jordanelle-state-park](http://www.stateparks.uta.gov/park/jordanelle-state-park)

Overnight parking of boats	\$10	\$10	\$10

\*Camping "weekdays" are considered Sunday-Thursday nights and day use "weekdays" are considered Monday - Friday.

**Upcoming Construction**

We are very excited for some new things coming to Jordanelle! First, the entrance to the park is getting remodeled. There will be electronic signage, three lanes, and an auto fee station. This is expected to be completed by May 21, 2014. We also received funding to replace the playground at Murdock Camp Services, which will be completed this spring. Jordanelle also received grants to expand the Perimeter Trail and for paving in the marina parking lot.

### Park Hours

\*The park is open 6am to 10pm each day. The park office is generally open Monday – Friday, 10am to 5pm (excluding holidays).

\*Fees apply year round.

\*Please display your annual pass or use the self-pay fee envelope system and pay with a check or cash.

\*Ross Creek has been shut down for the winter. There is no winter maintenance. Enter at your own risk.

\*The main roads and parking lots at Hailstone and Rock Cliff will be plowed during winter.

\*Ice on the reservoir has formed. Ice can be hazardous. Use it at your own risk.

### 2014 Event Dates

#### HAILSTONE

January 24 & 25: Orem District Klondike

January 31 & Feb. 1: Orem District Klondike

May 24: Ultimate Bass Team Tournament

June 7: Scheels Paddle Sports Demo, free w/park entry

July 19: Fire on the Water

July 26: Star Party, Salt Lake Astronomical Society

August 2: PCSUP CUP, stand up paddle board race

September 20-21: PCSA Fall Regatta, No Coast Championship

September 27: Wasatch Mountain Head Rowing Regatta

#### ROCK CLIFF & PERIMETER TRAIL

June 14: Rock Cliff Triathlon

June 28: XTERRA Half Marathon (trail)

August 1: Ultimate Challenge Triathlon Relay (Rock Cliff leg)

August 9: PCSUP Paddle Peddle Paddle Challenge (trail)

August 16: TriUtah Triathlon at Rock Cliff

Go to <http://www.stateparks.utah.gov/park/jordanelle-state-park/conditions> for current conditions at the park.

### Did you know the staff at Jordanelle grooms and plows the Strawberry Snowmobile Complex?

The Strawberry Complex made SnoWest Magazine as #11 best trail in the West! For current grooming information, go to <http://snowut.com/>

For avalanche conditions go to

<http://utahavalanchecenter.org/>

**Need a ride?** Lofty Peaks has guided snowmobile tours at Wasatch Mountain State Park!

Go to <http://www.loftypeaks.com/> to begin your adventure!

#### Utah State Parks Friends Group

Each membership gets two free day use entrance passes. This is a great organization to show your support for YOUR State Parks.

Do your part and JOIN! Go to

<http://friendsofutahstateparks.wordpress.com/> for more information.

## Division of Water Resources

## Why Conserve?

### Why should you conserve water?

There are many good reasons to conserve water.

- Water conservation can [help meet future needs](#).
- Saving water will [save you money](#).
- [We live in a desert](#); water is a precious resource!
- Water conservation helps [preserve the environment](#).

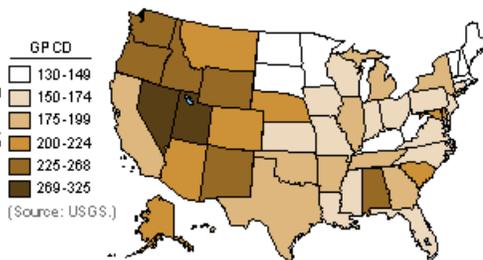

Although water conservation helps, some people have misconceptions about what water conservation can and can't do. At the bottom of this page, you can learn the facts and help dispel some [common conservation myths](#).

Additionally, you can now see [what Utahns have to say about water conservation](#). If we all work together to conserve water, we can help assure a bright and prosperous life for future generations. Become an advocate of conservation in your community. Help promote conservation as a wise and important water management principle.

### Help Meet Future Needs

Currently, Utah consumes about 260 gallons per person per day (gpcd), second only to Nevada. If Utahns can reduce per-capita consumption of water 25 percent by 2050, they will conserve the equivalent of over 500,000 acre-feet of water per year. That is more water than can be held in Jordanelle Reservoir and Deer Creek Reservoir combined, and more than any water project in Utah has developed.

#### Per Capita Water Use in the United States

Without water conservation, we would have to develop a large volume of new water. With conservation, some water development projects can be postponed or delayed by several years.

### Save Money

Conserving water saves you money! Not only will your water bill go down, but as you heat less water, your gas or energy bill will also decline. If your whole community conserves, you will also pay less fees for water-related services. Water conserving communities will not need to pay as much to develop new supplies and expand or upgrade water and wastewater infrastructure.

### We Live in a Desert

With the exception of the western portion of Washington, Oregon, and northern California, the western United States is arid and receives less annual precipitation than the rest of the nation. Next to Nevada, Utah receives the least precipitation - only 13 inches!

#### Average Annual Precipitation in the Western United States

(Source: U.S. Weather Bureau, 1961-1990 period.)

Because of Utah's arid climate, Utahns water their landscapes extensively to keep them lush and green. Most apply more water than needed. These landscapes, often composed of non-native plants from wetter regions, consume over half of Utah's municipal water supply and equates to 2/3 of a typical residential homeowners use.

### Preserve the Environment

Water is the life-blood of Utah's environment. From lush mountain meadows to harsh desert valleys, water holds everything together--making the land inhabitable by people and wildlife.

As Utah's population grows, the strains placed upon the environment and its critical ecosystems will increase. Conserving water will help

preserve the environment by minimizing necessary diversions and decreasing pollution.

*Park Manager's note: Our area has experienced drought conditions the last couple of years. You can see evidence of that in the record low water levels this past year. It is also important to prevent the spread of Aquatic Invasive Species, such as mussels. Remember to clean, drain, and dry your equipment every time. Do your part to save water so we can have water to use and play on! For more information go to: [conservewater.utah.gov](http://conservewater.utah.gov) and <http://wildlife.utah.gov/invasive-mussels.html>*
