UTAH STATE PARKS BOATING TIP OF THE WEEK

SaltLake-- Wear your life jacket! Approximately 700 people each year drown in recreational boating accidents. Much like a helmet to a mountain biker, life jackets are an essential part of boating safety equipment and should be worn at all times.

Life jackets are no longer the orange, hot and bulky vests that are commonly associated with on-the-water safety gear. New life jackets are smaller, sleeker, and much more comfortable, leaving no reason not to wear them.

Although many boaters stow life jackets on their boats, very few choose to wear them. During accidents, there often isn't time to grab a life jacket and put it on properly. Wearing a life jacket provides an additional measure of safety and the ability to assist others who may be in danger.

This year, remember to practice safe and responsible boating, always wear a life jacket, and be alert and aware while on the water.

For more information, visit stateparks.utah.gov or call (801) 538-BOAT. Remember, Utah Boaters...WEAR IT!
